

## 2018 Universal RFP - Active HMIS Agencies

This report is showing the last logins for UNITY end users at each agency that currently has users set up with access to UNITY. Occasionally, users are set up at only the project level to accommodate privacy/visibility settings, for example, "ACTS - Jail Diversion Program." Users set up at the project level should still be factored into the associated agency's score. Agencies with a UNITY Partner Agreement in place, but with no current UNITY end users are listed below this chart.
